

PRESS RELEASE

NOVEMBER 2020

THE RENAULT TRUCKS D WIDE 320 VOTED SUSTAINABLE TRUCK OF THE YEAR 2021

Renault Trucks has just received an award from the Italian magazine *Vado e Torno*, which each year awards a sustainable development prize to manufacturers of heavy goods and utility vehicles. The D Wide 320 was elected "*Sustainable Truck of the Year 2021*" in the Distribution category.

Every year, the Italian magazine *Vado e Torno* awards a sustainable development prize in three categories, Long Distance, Distribution and Utility Vehicles. The Renault Trucks D Wide 320 stood out in the Distribution category, winning the "*Sustainable Truck of the Year 2021*" award.

The jury, which acknowledged Renault Trucks' expertise and experience in the highly competitive segment of medium tonnage vehicles, rewarded the D Wide 320 model for its versatility, efficiency and productivity:

"The performance of the Optidriver automated gearbox, combined with the efficiency of the Fuel Eco pack – which features the Optiroll freewheel function – ensures low fuel consumption and therefore very low pollutant emission levels. The Renault Trucks D Wide 320 is one of the most efficient vehicles to meet the requirements of regional transport and the pursuit of profitability among hauliers."

"Last but not least, with its most recent D Wide, Renault Trucks has set the bar very high in terms of driver comfort", summed up the jury, which also commended the improvements made by the manufacturer on this model in terms of driving comfort, visibility and safety.

About Renault Trucks

Building on a legacy of more than a century of innovative French truck know-how, Renault Trucks supplies transport professionals with a range of vehicles (from 2.8 to 120 t) and services appropriate for distribution, construction and long-distance transport. Renault Trucks vehicles are sturdy and reliable with low fuel consumption enables them to deliver greater productivity and control operating costs. Renault Trucks distributes and maintains its vehicles via a network comprising more than 1,400 service outlets worldwide. The design and assembly of Renault Trucks vehicles, as well as the production of most components, is carried out in France.

Renault Trucks is part of the Volvo Group, one of the world's leading manufacturers of trucks, coaches and buses, construction equipment and power solutions for marine and industrial applications. The Group also provides comprehensive financing and servicing solutions. The Volvo Group employs around 104,000 people, has production facilities in 18 countries and sells its products across more than 190 markets. In 2019, the Volvo Group's net sales came to EUR 40.5 billion (432 billion SEK). The Volvo Group is a listed company headquartered in Gothenburg, Sweden. Volvo shares are listed on Nasdaq Stockholm.
