

PRESS RELEASE

MARCH 2020

RENAULT TRUCKS T 01 RACING: THE NEW SPECIAL USED TRUCK EDITION

To mark the arrival of the 48 hp 13 L engine in its used truck range, Renault Trucks is launching the T 01 Racing. Redesigned by the Halle du Design, this new special edition draws inspiration from the world of car racing. Reconditioned in full in the Used Trucks Factory, the Renault Trucks T 01 Racing comes complete with a one-year manufacturer's warranty.

Renault Trucks is offering a new sporty-looking special edition to mark the arrival of the 48 hp 13 L engine in its used trucks range: the Renault Trucks T 01 Racing.

The lines of this latest-generation Euro 6 used tractor have been enhanced by the designers of the *Halle du Design* (HDD), an entity owned by the French manufacturer. They have drawn inspiration from the world of car racing to create a modern, dynamic design that perfectly conveys the technical performance of the vehicle.

On the outside, the paintwork of the Renault Trucks T 01 Racing combines three shades on an ECLA white background, namely a shimmering black, flaming red and tangy yellow. The inside of the headlight reflectors are painted flaming red. Exclusive reflective stickers, reminiscent of the world of racing, are affixed to the vehicle. Last but not least, paintwork on the sun visor, hub caps, radiator grille and rear view mirrors, adds the finishing touch.

The tone is set the minute the cabin door is opened, as the entry bars also feature the special flaming red and tangy yellow paint. The driver then enters a carbon interior, with an all-round anthracite grey look. The red handles can be removed from the glove compartment.

As an option, customers can have additional carbon components, LED light accessories and horn, or request specific paint.

The metamorphosis of the Renault Trucks T 01 Racing occurs in the Used Trucks Factory, the unit dedicated to transforming and adapting the manufacturer's used vehicles, which is located within the Bourg-en-Bresse industrial site and applies the same processes as for a new vehicle.

The Renault Trucks T 01 Racing is a recent used vehicle, selected, prepared and transformed by experts in the Renault Trucks network, in accordance with the constructor's standards and using certified, original parts. It has low mileage and comes complete with a 12-month or 120,000 km manufacturer's warranty.

About Used Trucks by Renault Trucks

The *Used Trucks by Renault Trucks* label embraces all of the manufacturer's operations in the used-vehicle business.

Used Trucks by Renault Trucks is underpinned by three key assets: a commitment to quality and transparency in the selection and preparation of the vehicles; a range of tailored vehicles and services; a locally-based network to serve its customers.

About Renault Trucks

Building on a legacy of more than a century of innovative French truck know-how, Renault Trucks supplies transport professionals with a range of vehicles (from 2.8 to 120 t) and services appropriate for distribution, construction and long-distance transport. Renault Trucks vehicles are sturdy and reliable with low fuel consumption enables them to deliver greater productivity and control operating costs. Renault Trucks distributes and maintains its vehicles via a network comprising more than 1,500 service outlets worldwide. The design and assembly of Renault Trucks vehicles, as well as the production of most components, is carried out in France.

Renault Trucks is part of the Volvo Group, one of the world's leading manufacturers of trucks, coaches and buses, construction equipment and power solutions for marine and industrial applications. The Group also provides comprehensive financing and servicing solutions. The Volvo Group employs around 105,000 people, has production facilities in 18 countries and sells its products across more than 190 markets. In 2018, the Volvo Group's net sales came to EUR 38 billion. The Volvo Group is a listed company headquartered in Gothenburg, Sweden. Volvo shares are listed on Nasdaq Stockholm.
