ELECTRIC TRUCKS: RENAULT TRUCKS Z.E. RANGE WINS AN “ENVIRONMENTAL CARE” AWARD IN GERMANY

Renault Trucks has won the "Environmental Care - Manufacturer" VR Award, granted by the German magazine VerkehrsRundschau, for its 100% electric Z.E. range.

The VR Awards, granted by the magazine VerkehrsRundschau, honour manufacturers, transport and logistics professionals who have distinguished themselves in the fields of the environment, digital technology or training.

At the second edition of the VR Awards, held on 6th February 2020 in Munich, Renault Trucks won the "Environmental Care – Manufacturer" VR Award for its Z.E. electric truck range.

Frédéric Ruesche, Managing Director of Renault Trucks Germany stated: *“Renault Trucks is putting electric mobility at the heart of its strategy and has deployed significant research and development resources in this sector. We are proud that our electric trucks, now in series production, contribute to improving the quality of life in city centres.”*

With a comprehensive range of electric trucks from 3.1 to 26 tonnes, Renault Trucks meets both current and future requirements of professionals operating in urban environments. These vehicles are ideally suited to waste collection and distribution operations, enabling noiseless rounds at unconventional hours at the same time as preserving quality of life for local residents. Renault Trucks D and D Wide Z.E. are produced at the manufacturer’s plant in Blainville-sur-Orne (Calvados, France).

About Renault Trucks

Building on the legacy of more than a century of French truck know-how, Renault Trucks supplies transport professionals with a wide range of services and vehicles (from 3,1 to 120 T) adapted to local and regional distribution, construction and long distance activities. Renault Trucks vehicles are sturdy and reliable with low fuel consumption that enables them to deliver greater productivity and control operating costs. Renault Trucks is distributing and servicing its trucks via a dealership network comprising over 1,400 service points. The design and assembly of Renault Trucks vehicles, as well as the production of most components, is carried out in France.

Renault Trucks is part of the Volvo Group, one of the world's leading manufacturers of trucks, buses, construction equipment and marine and industrial engines. The Group also provides complete solutions for financing and service. The Volvo Group, which employs about 105,000 people, has production facilities in 18 countries and sells its products in more than 190 markets. In 2018 the Volvo Group's net sales amounted to about SEK 391 billion (EUR 38 billion). The Volvo Group is a publicly-held company headquartered in Gothenburg, Sweden. Volvo shares are listed on Nasdaq Stockholm.
