

## **RENAULT TRUCKS SERVICES CAMPING-CARS IN ITS *FAST&PRO* CENTRES**

**Renault Trucks *Fast&Pro* centres, devoted to the sale and maintenance of LCVs, also handle camping-cars. For a complete overhaul before leaving on holiday or for regular servicing, all camping-car drivers, whatever their make of vehicle, can benefit from the LCV expertise to be found in the Renault Trucks *Fast&Pro* network.**

The summer holidays are not far off now and increasing numbers of French people are opting to take a break in camping-cars - almost 350,000 of them in fact are preparing to do so this year. Via its *Fast&Pro* centres devoted to the sale and maintenance of LCVs, Renault Trucks is placing its expertise at their disposal by offering to service their vehicle in its network, whatever make of camping car they are driving.

Camping-car owners will be greeted in a specially equipped area, without needing to make an appointment, for thorough servicing before leaving on holiday or for everyday maintenance. Thanks to their high access doors and heavy duty hydraulic ramps, the *Fast&Pro* centres have all the infrastructure needed to easily service all sizes of camping-cars. The *Fast&Pro* centre mechanics, specifically trained for servicing LCVs, can handle all types of operation such as oil changes, work on the brakes, distribution, suspension, lights, tyres or repairing damage to the windscreen. Specific camping-car departments are now open for business in 29 *Fast & Pro* centres.

### *About Renault Trucks *Fast&Pro* centres*

It was because no specific facilities existed catering to professional LCV users that Renault Trucks launched its *Fast&Pro* centres in 2005. These offer fixed-price servicing packages, courtesy vehicles, safety diagnosis or, in France for example, a service to take vehicles in for their compulsory MOT test.
